Project Elevator Pitch

Are you in the hospitality business, managing a hotel, and looking for a smarter way to streamline your operations? Our "Hotel Management System" is the solution you've been waiting for.

The system is a comprehensive software platform designed to empower hotel owners, managers, and staff to efficiently handle every aspect of hotel management. From guest reservations and check-ins to room assignments, billing, and reporting, our system provides all the tools you need to optimize your hotel's performance.

Project Elevator Pitch

·01·

Simplify Reservation Management

·02·

Effortlessly Handle Check-Ins and Check-Outs:

·03·

Automate Billing

·04·

Enhance Security

Technical Challenge

•01• User Authentication
watch the class recording and the student portal

•02• Managing the Database
Worked table by table

Big Mistake

Time Management and Lack of Planning
